INDEX

ACIDS, and growth of oat seedlings, 314.

ALBAUM, H. G., AND B. COMMONER. The relation between the four-carbon acids and the growth of oat seedlings, 314.

Amoeba proteus, pH and volume, gel/sol ratio and action of contractile vacuole, 265.

Anisoporus manteri Hunninen and Cable, 1940, life history, 415.

Anodonta hallenbeckii, rôle of tissues in anaerobic metabolism, 79.

Antennal receptors, function in lepidopterous larvae, 403.

Arbacia egg extracts, sperm activation by, with relation to echinochrome, 202.

—— —— jelly, effects of Roentgen radiation, 363.

—— punctulata egg, size of "halves" and centrifugal force, 354.

Artemia, effect of salinity on rate of excystment, 194.

Ascidian egg, development of, centrifuged before fertilization, 153.

BARBER, S. B. *See* Hunter, Barber and Caputi, 69.

BEAMS, H. W. *See* Evans, Beams and Smith, 363.

BENDITT, E., P. Morrison and L. Irving. The blood of the Atlantic salmon during migration, 429.

BERRILL, N. J. Size and morphogenesis in the bud of Botryllus, 185.

——, –. –. The development of the bud in Botryllus, 169.

BLACK, E. C. *See* Ferguson and Black, 139.

——, –. –. *See* Irving, Black and Safford, 1.

Blood, combination of oxygen with, influence of temperature, in trout, 1.

—— of Atlantic salmon during migration, 429.

—— of freshwater fishes, carbon dioxide transport in, 139.

BOTRYLLUS bud, development of, 169.

——, size and morphogenesis in bud, 185.

BOTSFORD, E. F. The effect of physostigmine on the responses of earthworm body wall preparations to successive stimuli, 299.

BURGER, J. W. Some experiments on the effects of hypophysectomy and pituitary implantations on the male Fundulus heteroclitus, 31.

CABLE, R. M. *See* Hunninen and Cable, 415.

Calanoid community, distribution of, effect of water circulation, 86.

CAPUTI, A. P. *See* Hunter, Barber and Caputi, 69.

Carbon dioxide, transport in blood of freshwater fishes, 139.

Centrifugal force, and size of "halves" of Arbacia punctulata egg, 354.

—— ——, effect of, before fertilization, on development of ascidian egg, 153.

CHEN, T. *See* Tartar and Chen, 130.

Ciliates, comparative growth characteristics of four species, 50.

Ciona, cross- and self-fertilization of, 338.

Circulation of water, effect on distribution of calanoid community, 86.

Coloration and color changes in gulfweed crab, 26.

COMMONER, B. *See* Albaum and Commoner, 314.

CORNMAN, I. Sperm activation by Arbacia egg extracts, with special relation to echinochrome, 202.

CULBRETH, S. E. The rôle of tissues in the anaerobic metabolism of the mussel, Anodonta hallenbeckii Lea, 79.

DAY, M. F. Pigment migration in the eyes of the moth, Ephestia kuehniella Zeller, 275.

DETHIER, V. G. The function of the antennal receptors in lepidopterous larvae, 403.

Distribution of calanoid community, effect of water circulation, 86.

EARTHWORM, responses of body wall to stimuli, effect of physostigmine, 299.
Echinochrome, and sperm activation by Arbacia egg extracts, 202.
Echinoderms, Pacific coast, pigments of, 441.
——, temperature and righting, 292.
Ephestia kuehniella, pigment migration in eyes of, 275.
Erythrocytes, chicken, effect of saponin on osmotic hemolysis of, 69.
Ethinyl testosterone, effect on gonopodial characteristics produced in anol fins of Gambusia affinis affinis, 371.
EVANS, T. C., H. W. BEAMS AND M. E. SMITH. Effects of Roentgen radiation on the jelly of the Arbacia egg, 363.
Excystment, rate of, effect of salinity on, in Artemia, 194.

FEEDING, method of, in four pelecypods, 18.
FERGUSON, J. K. W., AND E. C. BLACK. The transport of carbon dioxide in the blood of certain freshwater fishes, 139.
FERTILIZATION, cross- and self-, of Ciona, 338.
FOWLER, C. The relation between hydrogen-ion concentration and volume, gel/sol ratio and action of the contractile vacuole in Amoeba proteus, 265.
FOX, D. L. Changes in the tissue chloride of the California mussel in response to heterosmotic environments, 111.
——, —. —., AND B. T. SCHEER. Comparative studies of the pigments of some Pacific coast echinoderms, 441.
Fundulus heteroclitus, effects of hypophysectomy and pituitary implantations on male, 31.

GADUS callarias, melanosis in, associated with trematode infection, 37.
Gambusia affinis affinis, effect of ethinyl testosterone on gonopodial characteristics produced in anal fins, 371.
GILMAN, L. C. Mating types in diverse races of Paramecium caudatum, 384.
GILMOUR, D. Repayment of the anaerobic oxygen debt in grasshopper skeletal muscle, 45.
Growth characteristics, comparative, of four species of sterile ciliates, 50.
—— of oat seedlings, four-carbon acids and, 314.
Gulf of Maine, effect of water circulation on distribution of calanoid community, 86.

HARVEY, E. B. Relation of the size of "halves" of the Arbacia punctulata egg to centrifugal force, 354.
Hemolysis, osmotic, effect of saponin on, of chicken erythrocytes, 69.
HITCHCOCK, H. B. The coloration and color changes of the gulf-weed crab, Planes minutus, 26.
HSIAO, S. C. T. Melanosis in the common cod, Gadus callarias L., associated with trematode infection, 37.
HUNNINEN, A. V., AND R. M. CABLE. Studies on the life history of Anisoporus manteri Hunninen and Cable, 1940 (Trematoda: Allocreadiidae), 415.
HUNTER, F. R., S. B. BARBER AND A. P. CAPUTI. The effect of saponin on the osmotic hemolysis of chicken erythrocytes, 69.
Hybridization, diploid and haploid, between two forms of Rana pipiens, 238.
Hydrogen-ion concentration and volume, gel/sol ratio and action of contractile vacuole in Amoeba proteus, 265.
Hypophysectomy, effects of, and pituitary implantations on male Fundulus, 31.

IRVING, L. *See* Benditt, Morrison and Irving, 429.
——, —., E. C. BLACK AND V. SAFFORD. The influence of temperature upon the combination of oxygen with the blood of trout, 1.

JENNINGS, R. H., AND D. M. WHITAKER. The effect of salinity upon the rate of excystment of Artemia, 194.

KIDDER, G. W. Growth studies on ciliates. VII. Comparative growth characteristics of four species of sterile ciliates, 50.
KITCHING, J. A. Studies in sublittoral ecology. III. Laminaria forest on the west coast of Scotland; a study of zonation in relation to wave action and illumination, 324.
KLEITMAN, N. The effect of temperature on the righting of echinoderms, 292.
KU, S. *See* Tung, Ku and Tung, 153.

LAMINARIA forest, zonation in relation to wave action and light, 324.
Lepidopterous larvae, function of antennal receptors, 403.
Light, effect on zonation, in Laminaria forest, 324.

MACGINITIE, G. E. On the method of feeding of four pelecypods, 18.
Mating reactions of enucleate fragments in Paramecium, 130.
—— types in diverse races of Paramecium caudatum, 384.
Melanophores, pituitary regulation of, in rattlesnake, 228.
Melanosis in common cod, associated with trematode infection, 37.
Metabolism, anaerobic, rôle of tissues in, of Anodonta hallenbeckii, 79.
MORGAN, T. H. Further experiments in cross- and self-fertilization of Ciona at Woods Hole and Corona del Mar, 338.
Morphogenesis and size in Botryllus bud, 185.
MORRISON, P. *See* Benditt, Morrison and Irving, 429.
Muscle, skeletal, repayment of anaerobic oxygen debt, grasshopper, 45.
Mussel, California, tissue chloride changes in response to heterosmotic environments, 111.

NUTRITIONAL requirements of Tribolium confusum Duval, 208.

OAT seedlings, growth of, four-carbon acids and, 314.
Oxygen, combination of, with trout blood, effect of temperature, 1.
—— debt, anaerobic, repayment of, in grasshopper skeletal muscle, 45.

PARAMECIUM bursaria, mating reactions of enucleate fragments, 130.
—— caudatum, mating types in diverse races of, 384.
Pelecypods, method of feeding, 18.
Physostigmine, effect on responses of earthworm body wall preparations to stimuli, 299.
Pigment migration, eyes of Ephestia, 275.
Pigments of Pacific coast echinoderms, 441.
Pituitary implantations, effect on male Fundulus, 31.
—— regulation of melanophores in rattlesnake, 228.
Planes minutus, coloration and color changes, 26.
PORTER, K. R. Diploid and androgenetic haploid hybridization between two forms of Rana pipiens, Schreber, 238.

RAHN, H. The pituitary regulation of melanophores in the rattlesnake, 228.
Rana pipiens, diploid and androgenetic haploid hybridization between two forms, 238.
Rattlesnake, pituitary regulation of melanophores, 228.
REDFIELD, A. C. The effect of the circulation of water on the distribution of the calanoid community in the Gulf of Maine, 86.
Righting, temperature and, in echinoderms, 292.
Roentgen radiation, effects on Arbacia egg jelly, 363.

SAFFORD, V. *See* Irving, Black and Safford, 1.
Salinity, effect on rate of excystment of Artemia, 194.
Salmon, Atlantic, blood during migration, 429.
Saponin, effect on osmotic hemolysis of chicken erythrocytes, 69.
SCHEER, B. T. *See* Fox and Scheer, 441.
SCHNEIDER, B. A. The nutritional requirements of Tribolium confusum Duval, I, 208.
Size and morphogenesis in Botryllus bud, 185.
SMITH, M. E. *See* Evans, Beams and Smith, 363.

Sperm activation by Arbacia egg extracts, 202.

TARTAR, V., AND T. T. CHEN. Mating reactions of enucleate fragments in Paramecium bursaria, 130.

Temperature, effect on combination of oxygen with trout blood, 1.

——, effect on righting of echinoderms, 292.

Tissue chloride, changes in California mussel in response to heterosmotic environments, 111.

Tissues, in anaerobic metabolism of Anodonta, 79.

Tribolium confusum Duval, nutritional requirements, 208.

Trout blood, effect of temperature on combination of oxygen with, 1.

TUNG, T., S. KU AND Y. TUNG. The development of the ascidian egg centrifuged before fertilization, 153.

TURNER, C. L. Gonopodial characteristics produced in the anal fins of females of Gambusia affinis affinis by treatment with ethinyl testosterone, 371.

WAVE action, effect on zonation in Laminaria forest, 424.

WHITAKER, D. M. *See* Jennings and Whitaker, 194.

ZONATION, with respect to wave action and light, in Laminaria forest, 324.
